

What are the different calendar connection options?

Last Modified on Feb 20, 2022

In this article, you'll learn about the differences between the various [OnceHub calendar integrations](#).

OnceHub connects to your personal calendar in real time. [Busy time](#) is automatically retrieved and bookings are created directly in your calendar. OnceHub has calendar integrations with [Google Calendar](#), [Office 365 Calendar](#), and [iCloud Calendar](#).

Integration differences

There are some minor differences between the different calendar integrations, which are detailed in the tables below.

 **Note:**

Outlook Calendar can be connected to OnceHub in different ways. See the column according to the method you chose to connect with.
