

Additional team members

Last Modified on Jun 2, 2023

Additional team members are members of your organization who participate in [Panel meetings](#). Panel meetings allow you to offer meetings where Customers can meet with multiple members of your organization simultaneously.

Panel meetings have a [Booking owner](#), who is the Booking assignment team member, and Additional team members who participate as panelists in the meeting. Panel meetings can be set up in [Master pages using a team or panel page](#).

When you create a Panel meeting, you can include any number of Additional team members. Additional team members can be a specific [Booking page](#) or a [Resource pool](#). If you choose Resource pools, a Team member from each pool will be assigned according to the pool's distribution method. You can choose from [Round robin](#), [Pooled availability](#), or [Pooled availability with priority](#).

When Customers visit your [Master page](#), they will only see availability for possible panel combinations. This means that they will only see time slots when all panelists are available, whether the panelists are specific Booking pages or a relevant member of a Resource pool.

How are Additional team members added to a booking?

If the Booking owner [has a calendar connected to OnceHub](#), Additional team members are added as guests/attendees to the Booking owner's calendar event.

If the Booking owner [is not connected to a calendar](#) and the Additional team members are, OnceHub will create a 'dummy' event in the Additional team members' calendars to ensure that they don't get double booked.

Note :

Changes to the "dummy" event in the Additional team members' calendars will not affect the scheduled booking.

How are the Additional team members updated throughout the booking lifecycle?

The Panel meeting is added as a single shared activity to each Additional team member's [Activity stream](#), with the Booking owner and Additional team members listed. This means that if there are status changes, they will be updated.

Additional team members are also cc'd on all [notifications](#) sent to the Booking owner, including the initial confirmation, reminders, and updates about schedule changes. This ensures that all Panel members have the meeting details and are updated throughout the booking lifecycle.

Can Additional team members perform the same actions as the Booking owner?

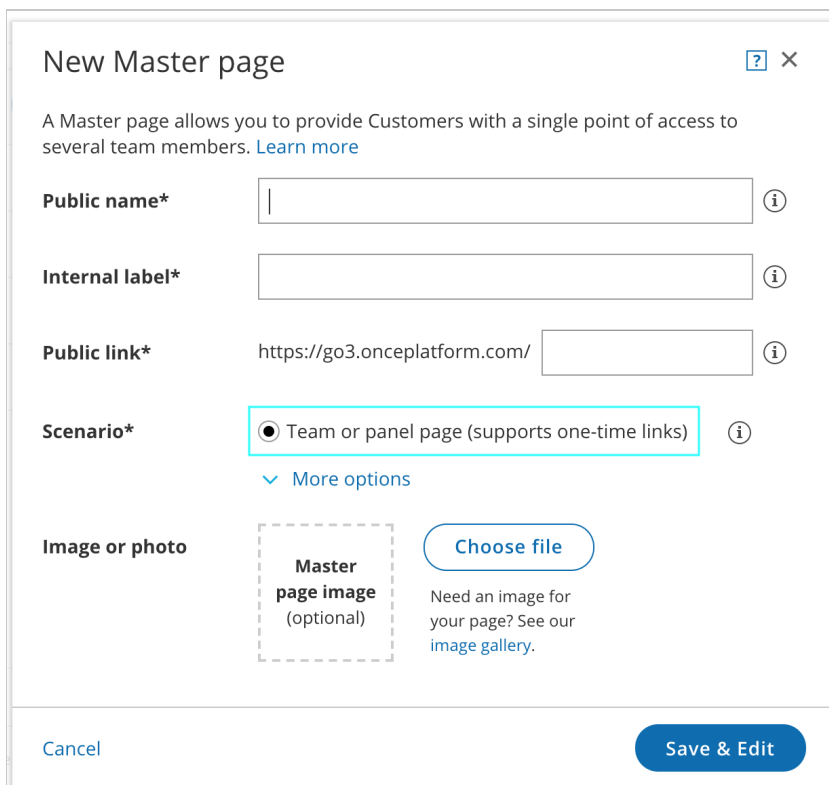

Yes. Any User who can see a Panel meeting activity in their Activity stream [can cancel it or request to reschedule](#). If a User cancels or requests to reschedule, all Panelists will be affected.

Requirements

To create a Master page and add Additional team members, you must be a [OnceHub Administrator](#).

How to add Additional team members to meetings

1. Click **Setup** -> **Booking Page setup** in the top navigation bar.
2. Click the Plus button  in the **Master pages** pane.
3. The **New Master page** pop-up appears (Figure 1).

New Master page ? ×

A Master page allows you to provide Customers with a single point of access to several team members. [Learn more](#)

Public name* ⓘ

Internal label* ⓘ

Public link* <https://go3.onceplatform.com/> ⓘ

Scenario* Team or panel page (supports one-time links) ⓘ
[More options](#)

Image or photo [Choose file](#)
Master page image (optional)
Need an image for your page? See our [image gallery](#).

[Cancel](#) [Save & Edit](#)

Figure 1: New Master page pop-up

4. In the **Scenario** field of the **New Master page** pop-up, select the **Team or panel page** scenario (Figure 1).
5. Populate the pop-up with a **Public name**, **Internal label**, **Public link** and an image if you choose. Then, click **Save & Edit**. You'll be redirected to the [Master page Overview](#) section to continue editing your settings.
6. Go to the [Event types and assignment](#) section of the Master page.

Tip:

When you use a Master page with team or panel pages, you can also [generate one-time links](#) which are good for one booking only, eliminating any chance of unwanted repeat bookings.

A Customer who receives the link will only be able to use it for the intended booking and will not have access to your underlying [Booking page](#). One-time links [can be personalized](#), allowing the Customer to pick a time and schedule without having to fill out the [Booking form](#).

- In the **Event-based rules** section, click **Add Event type**.
- Select which Event types will be offered in your Master page (Figure 3). For each Event type you want to add, you'll need to add a new rule. Master pages with Dynamic rules can only include Event types configured to [Automatic booking](#) and Single session. [Learn more about conflicting settings when using team or panel pages](#)

Select the Event types to show in your Master page, and choose who should receive the booking.
You can use [Resource pools](#) to manage team assignment rules such as Round Robin and Pooled availability

Display order ⓘ	Event type	Booking assignment ⓘ	Additional team members ⓘ
1	Intro session ▼	Suzie main page ▼	None ▼ ...
2	Consultation ▼	Sales team ▼	None ▼ ...
3	Demo ▼	Sales team ▼	1 selected ▼ ...

[+ Add Event type](#)

Figure 2: Add Event types

- Under **Booking assignment**, choose a Booking page or Resource pool from which the Booking owner will be assigned.
- Under **Additional team members**, select additional Booking pages and Resource pools to participate in the meeting. You can select an unlimited number of Additional team members.
- Click **Save**.

Note:

The [existing associations between Booking pages and Event types](#) do not affect choosing an Additional team member. Any Booking page can be selected as an Additional team member to participate in your Panel meeting.
