

## Signing up for a OnceHub account

Last Modified on Feb 20, 2020

To create a new OnceHub account:

1. Open the [OnceHub sign up page](#) and input your name, email address, and password.
2. Click **Sign up**.

The image shows a sign-up form for OnceHub. At the top, there is a cartoon illustration of three characters (two calendars and one clock) on a boat. Below the illustration, the text reads "Jump on board" and "Start your 14-day free trial". The form contains four input fields: "Name", "Email", "Password", and "Retype password". A blue "Sign up" button is located below the input fields. At the bottom of the form, there is a link "Already have an account? Sign in here" and a disclaimer: "By clicking 'Sign up', you agree to our [Application Privacy Policy](#) and [Master Service Agreement](#)."

### Which email address can I sign up with?

You can create a OnceHub ID with any authentic email address and a password of your choice.

You can also create a OnceHub account using G Suite by installing the OnceHub app from [G Suite Marketplace](#). Once installed, any User on your G Suite domain can create the first User. That User will become the first

Administrator on the account, and all additional Users on the domain must be invited by the Administrator.

Can I change my email address after I sign up?

Yes, you can do so in [your profile](#), accessed via the left navigation menu.

If you are using OnceHub with a G Suite ID, your email address is your G Suite ID and therefore can only be changed via your G Suite account.
