

# Applying a theme

Last Modified on Oct 12, 2022

The [Theme designer](#) allows you to fully customize the look and feel of your [Booking pages](#) and [Master pages](#).

Themes are applied to each Booking page and Master page individually. However, applying a theme to a Master page always overrides the themes applied to the Booking pages [included in that Master page](#).

Themes determine the logo, branding, and look and feel of your Booking pages and Master pages. Any changes made to a theme that has already been applied to a page are immediately visible on the Customer app.

## Applying a theme

You can apply a theme in a couple places: on the relevant **booking page** or on the relevant theme in the [Theme designer](#).

### Apply a theme directly to a page

1. Go to **Booking pages** in the bar on the left.
2. Select the [Booking page](#) or [Master page](#) for which you want to change the theme.
3. In the **Overview** section, select a theme from the **Theme** drop-down menu (Figure 1).

### Apply on a specific theme

1. Go to **Booking pages** in the bar on the left.
2. On the left, select **Theme designer**.
3. Select the theme you want to apply.

- In the three-dot menu, click on **Apply** (Figure 2).
- Select the relevant page(s) you want to use that theme and select the **Apply** button.

## Your default theme

In the [Theme designer](#), you can set a default theme that applies to any newly created Booking page or Master page.
