

What's new in version 8.95?

Last Modified on Jan 12, 2021

ScheduleOnce 8.95 includes minor product updates and introduces around-the-clock support, as well additional updates to our extensive range of calendar integrations.

24-hour customer support!

Customer support has always been a top priority at ScheduleOnce. We wanted to go a step further. Starting today, we will make ourselves available to you via email and phone 24 hours a day, seven days a week. Please see our redesigned [Contact page](#) for more details.

Exchange Calendar action sync

Calendar actions are now supported with your Exchange calendar. When turned on, calendar actions allow you to delete or make changes to a scheduled meeting directly in your Exchange calendar, and have these changes updated in ScheduleOnce. [Learn more](#)

Connect to Office 365 with an app password

ScheduleOnce 8.95 gives you an additional option to connect to your Office 365 Calendar using an [app password](#). The app password is a permanent connection that will not expire with any Office 365 password changes. [Learn more](#)

In addition to the above, we are also working on some exciting changes that will be introduced in our 9.0 release in Q1 of 2019. Stay tuned!
