

What's new in version 8.2?

Last Modified on Jan 13, 2021

ScheduleOnce 8.2 introduces our Partner Directory as well as a few product enhancements that further modernize the Customer application:

Modernized widget

Our design team tweaked the look and feel of the website widget to make it more modern. If you are using our website widget, it will be automatically updated to the new design. [Learn more about our website widget](#)

Customize the design of booking form fields

You can now decide whether you want to use a modern underline design for your form fields or a more classic box design. This can be configured in the [Theme designer](#).

ScheduleOnce Partner directory

At ScheduleOnce, we make it our top priority to help you get the most out of our platform. That's why we partner up with experts from different fields and industries so that you can get all the help required to successfully integrate ScheduleOnce with your specific business processes.
