

What's new in version 6.95?

Last Modified on Feb 28, 2019

ScheduleOnce 6.95 is a minor release, setting the stage for ScheduleOnce 7.0, which is planned for the July-August timeframe. The 6.95 release has multiple enhancements and fixes, the most notable being:

Notification templates editor out of beta

The Notification templates editor was released as a beta feature in [ScheduleOnce 6.9](#). This release adds valuable functionality to the [WYSIWYG editor](#) and takes it out of its beta status, bringing it up to par with all other ScheduleOnce features. [Learn more about the Notification templates editor](#)

Status page

The status page provides real-time and historic updates on any planned and unplanned disruptions in the ScheduleOnce service. The page is available at status.oncehub.com. The status page is fully integrated with our status updates Twitter account. You can stay up-to-date on all incidents by following [@StatusOnce](#). [Learn more about the status page](#)

Video library

The video library is a collection of video tutorials available at help.oncehub.com/help/video-library or as context-sensitive links throughout the application. The video library is launched with 14 videos and you will see this number double in the coming months. [Browse the video library](#)

Additional billing contact

Your finance department now has easy access to all ScheduleOnce invoices. You can add an additional email address for a billing contact that will be copied on all invoice emails generated by ScheduleOnce. This can be done from the Account page »Billing tab Transactions.

As always, if you have any questions or feedback, we would love to hear it. You can use our [Contact page](#).
