

Customer notification scenarios

Last Modified on Oct 11, 2022

The Scenarios table below defines the Customer notification scenarios used in the Customer notification section of the Booking page. These scenarios are the booking events that can take place during the booking lifecycle. You can choose which scenarios will trigger notifications and if the notifications are sent via email, SMS, or both.

In this article, you'll learn about the different scenarios for using Customer notifications.

In this article:

- Location of the Customer notifications section
- Scenarios

Location of the Customer notifications section

Figure 1: The Customer notifications section on an Event type

By default, when your Booking page is associated with Event types, the Customer notifications section is located on the Event type. When your Booking Page is not associated with Event types, this section is located on the Booking page. However, your account Administrator can change the location of this section to be always on either Booking pages or Event types for the entire account.
