Reassigning a booking	

#### Requirements

- You must be a OnceHub Administrator.
- Additionally, you must be the Owner, an Editor, or a Viewer of the Booking page that the booking was made on.
- Booking reassignment is only available between Users who are both connected to Google Calendar, or Users who are both **not connected** to any calendar.
- The meeting type must be a one-on-one meeting. Panel or team-hosted meetings cannot be reassigned

#### Reassigning a booking

- 1. Select the booking that you want to reassign in the Activity stream.
- 2. In the Details pane, select Reassign the booking (Figure 1).

- 5. You can reassign a booking to a Booking page labeled **Yes** or **No** under the **Available** column.
  - **Yes:** The Booking page is available at the designated time.
  - **No:** The Booking page is either busy at the designated time, or the designated time is outside of the User's recurring or date-specific availability. You can still reassign the booking to a Booking page that is not available.
  - **Error:** The page cannot accept bookings due to a system error. The Booking page may be disabled, or there may be a calendar connection error. It can also mean that the Booking page is not eligible for reassignment.
- 6. Click Next.
- 7. In the **Notification** step, you can add a **Booking reassignment reason** that will be provided to the Customer. This step is optional.

The **Booking reassignment reason** is shown in the **Details** pane of the Activity stream for a reassigned booking. It is also included in the email notifications sent to the original Booking owner, the new Booking owner, and any additional stakeholders. This allows you to communicate the reason for reassigning a booking to relevant Users.

- 8. Click Next.
- 9. In the **Review** step, confirm the details of the booking that you're about to reassign.
- 10. Click Reassign booking.
- 11. In the **Confirmation** step, you'll receive confirmation that the booking has been successfully reassigned.
