

# How to test a Custom notification template

Last Modified on Oct 12, 2022

You can test your [Custom templates](#) by creating a test booking and filling out a Booking form as if you were a Customer. You can perform several of these test bookings to test every template you have created in every relevant scenario.

In this article, you'll learn how to test a Custom notification template.

In this article:

- [Testing the Custom notification template](#)
- [Testing checklist](#)

## Testing the Custom notification template

1. In the [Booking form section](#) of your [Event type](#), use from the **Booking form** drop-down menu to select a Booking form (Figure 1).

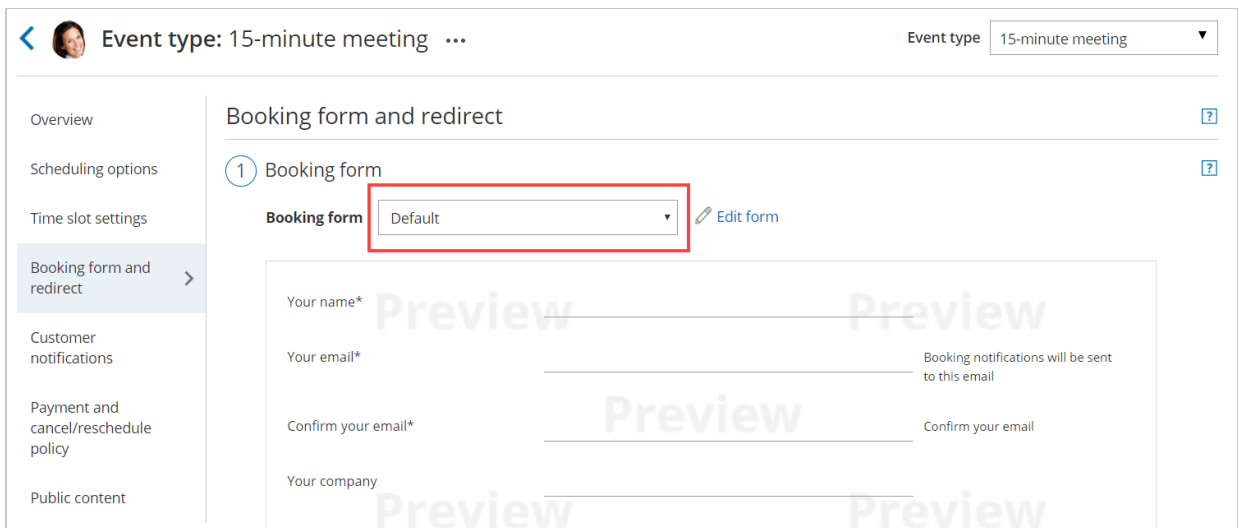

Figure 1: Selecting a Booking form template

2. In the [Customer notification section](#) of your [Event type](#), select a template for each [Notification scenario](#) you want to send notifications for (Figure 2).

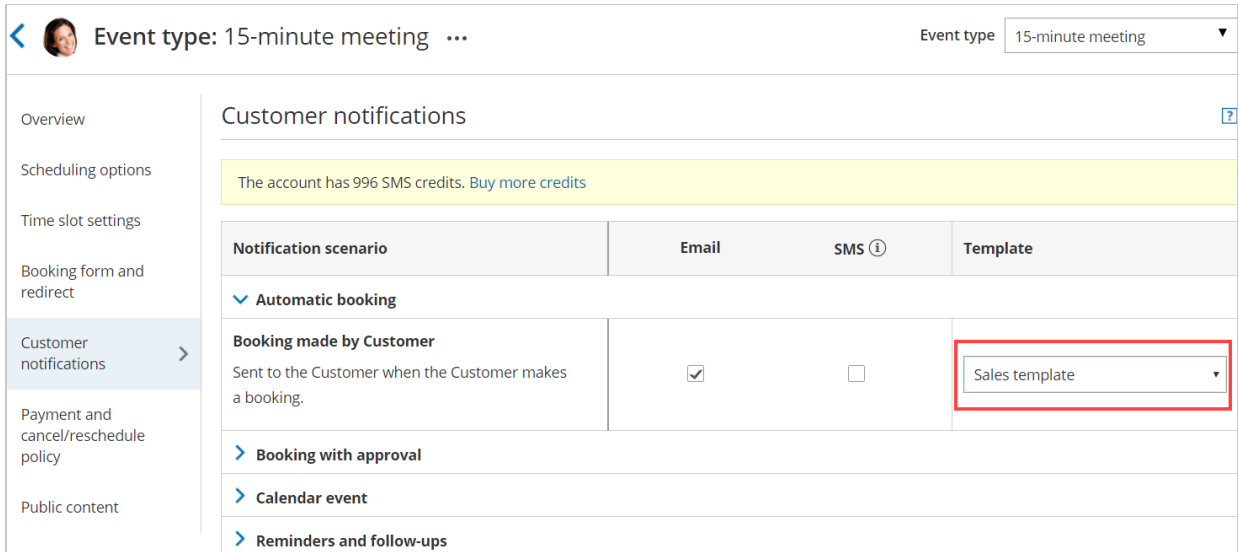

Figure 2: Choosing a Custom notification template for each Notification scenario

- In the **User notifications** section of your Booking page, select a template for each **Notification scenario** you want to send notifications for (Figure 3).

Figure 3: Choosing a Custom notification template for each Notification scenario

**Note:**  
If you want to receive **User SMS notifications**, you'll need to enter a phone number in your **Profile's Personal details** section.

- In the **Booking page Overview** section of your Booking page, click on the public link in the **Share & Publish** section.

5. Schedule a meeting and fill out the Booking form that you created as if you were a Customer.
6. Click **Done**.
7. You can now check that you received a confirmation email and SMS.  
If you're using [Booking with approval mode](#), you can click **Approve the booking request** in your User email notification. [Learn more about scheduling booking requests](#)  
You can also check that the calendar event was added to your calendar. [Learn more about calendar events](#)
8. Finally, you can choose to [cancel or reschedule the booking](#), or let the booking run its course and test the reminder and follow-up messages.

## Testing checklist

During the testing, you should check the following:

- The text is written the way you want.
- The correct [Dynamic fields](#) were chosen.
- The spacing/formatting is correct.
- That you are sending emails and SMS notifications for the required booking notifications.
