

Event type: Payment and cancel/reschedule policy section

Last Modified on Jul 6, 2020

ScheduleOnce enables you to specify when your Customers can cancel or reschedule a booking. The cancel/reschedule policy only affects your Customers. They can cancel or reschedule on the [Customer Cancel/reschedule page](#). Users are not subject to the Cancel/reschedule policy and they can cancel or reschedule at any time from the [Activity stream](#).

When you use [Payment integration](#), you can charge a reschedule fee or automatically process refunds when Customers reschedule or cancel bookings. The policy settings will vary based on the payment option that you choose.

Location of the Payment and cancel/reschedule policy section

To edit the Payment and cancel/reschedule policy for your Event type, go to **ScheduleOnce setup** -> select the relevant Event type

-> **Payment and cancel/reschedule policy** (Figure 1).

The screenshot shows the 'Payment and cancel/reschedule policy' configuration page. On the left is a navigation sidebar with options: Overview, Scheduling options, Time slot settings, Booking form and redirect, Customer notifications, **Payment and cancel/reschedule policy** (selected), and Public content. The main content area is titled 'Payment and cancel/reschedule policy' and contains two sections:

- 1 Payment and pricing**
 - Do not display a price
 - Display a price but do not collect payment via ScheduleOnce. [Learn more](#)
 - Input field: 100.00
 - Dropdown menu: U.S. Dollar (USD)
 - Display a price and collect payment via ScheduleOnce. (requires a [connected PayPal account](#))
- 2 Cancellation policy**
 - Customers can cancel online**
 - Any time before the meeting
 - Up to before the meeting
 - Never
 - Policy description (visible to Customers)**
 - System text (Recommended)
 - Custom text

Payment collection options

Do not display a price

When you choose not to display a price, you define the timeframe during which Customers are permitted to cancel or reschedule a booking. You can also customize the policy description visible to Customers on the Cancel/reschedule page. [Learn more about the Cancel/reschedule policy when not displaying a price](#)

Display a price but do not collect payment via ScheduleOnce

When you choose to display a price but do not collect payment via ScheduleOnce, you set the price for your Event type but collect payment and process refunds manually (not via ScheduleOnce).

You can customize the policy description to include the refund amount your Customers will receive if they cancel, or the reschedule fee they'll be charged if they reschedule. All payment transactions will be handled manually and not via ScheduleOnce. [Learn more about displaying a price and not collecting payment via ScheduleOnce](#)

Display a price and collect payment via ScheduleOnce

In order to display a price and collect payment via ScheduleOnce, your ScheduleOnce account must be [connected to PayPal](#). When you choose this option, payments are collected automatically when Customers schedule or reschedule a booking.

Depending on your [Refund settings](#), you can also enable ScheduleOnce to automatically process refunds when Customers cancel a booking. This allows you to streamline your payment and refund processes and provide a seamless customer experience. [Learn more about displaying a price and collecting payment via ScheduleOnce](#)
