

What's new in version 9.3?

Last Modified on Jan 12, 2021

ScheduleOnce one-time links

In version 9.3, we introduce ScheduleOnce one-time links and say goodbye to unwanted repeat bookings. One-time links provide you with complete control over your customers' bookings. Customers can make a single booking only without being exposed to your underlying booking page link. One-time links can be personalized, allowing the customer to pick a time without having to fill out the booking form.
