

Paying via credit or debit card

Last Modified on Apr 30, 2020

In this article you will learn what happens after you enter your credit card details as a form of payment.

Supported cards

OnceHub supports all major credit cards and debit cards. Supported cards include Visa, Mastercard, American Express, Discover, and JCB.

Primary payment methods and additional payment methods are stored in your OnceHub Account in the **Billing -> Payment methods** section. You can add or remove payment methods at any time. You can also change the primary payment method as needed.

You can only add a credit card as a payment method after your first purchase. In the case of a credit card nearing its expiration date, simply add your new card as the primary payment method. Learn how to add a credit card in **Billing -> Payment methods**

Compliance

OnceHub is a PCI DSS level 1 service provider. Our payment security is paramount, and has achieved certified compliance against all PCI DSS version 3.2 requirements. OnceHub strictly adheres to these standards to safeguard your payment data before, during and after purchase. Our ongoing commitment to payment protection includes regular validation by an independent PCI Qualified Security Assessor (QSA). You can rest assured, your organization's payment information is protected by the global standard in payment card security.
