### Customer Cancel/reschedule policy rules

The following rules apply to the Customer Cancel/reschedule policy:

- The Cancellation and Reschedule policy only affects your Customers. Users are not subject to the policy and they can cancel or reschedule at any time from the [Activity stream](#).
- The Customer can always access the Customer cancel/reschedule link in [Default email and calendar invite templates](#), regardless of the Cancel/reschedule policy. The policy will be reflected on the [Customer Cancel/reschedule page](#) that the Customer accesses via the Cancel/reschedule link. The policy will always reflect the settings that were saved at the time of the initial booking.
- If you're working in [Booking with approval](#) mode, the Customer Cancel/reschedule policy does not apply to booking requests. However, it will apply to scheduled or rescheduled bookings.

- **Up to a certain time before the meeting:** In this case, you can select how long before the scheduled meeting time that the Customer can cancel. The possible values range from 15 minutes to 14 days.
- **Never:** In this case, the Customer will never be able to cancel the booking.

**Note:**

When you work with [Session packages](#), Customers can cancel each session independently and each session is subject to the Cancellation policy.

- In the **Cancellation policy** step, you can also define the **Policy description** that is visible to Customers on the [Customer Cancel/reschedule page](#). By default, OnceHub generates an automatic text based on your selection. You can decide to use your own custom text instead if you want to customize the cancellation policy description.
- Finally, in the **Cancellation policy** step you can also choose to ask your Customers to give you a **cancellation reason** (see Figure 4). This question will be displayed on the [Customer Cancel/reschedule page](#).
