Effects of disabling your Booking page

- Customers will not be able to make new bookings.
- Customer will not be able to cancel existing bookings.
- Customer will not be able to reschedule existing bookings on that same page.

- If an existing booking was booked through a chatbot, and the disabled page is an additional team member in a panel, they can reschedule the meeting if there are others available. However, the existing calendar event, notifications, and any other data will not be updated.
- The Public content section is still visible to your Customers whether your page is enabled or disabled. Consider changing your personal message if you're thinking about disabling your Booking page.
- On the Booking page's Overview section, the **Accept bookings** toggle switch is in the **Off** position, and an alert message is displayed under the Booking page name with a link to enable the page (Figure 3). To facilitate accurate setup, the status of disabled pages is indicated in most Booking page lists within the app.
