

## Location of the Scheduling options [Legacy]

Scheduling options are located on the [Booking page](#) by default. If you associate [Event types](#) with your Booking page, the **Scheduling options** section is located on the Event type. This allows you to standardize the settings for your scheduling scenarios. [Learn more about associating Event types with Booking pages](#)

### Booking pages associated with Event types

For Booking pages **associated** with Event types (recommended), go to **Booking pages** in the bar on the left, select the relevant **Event type**, and go to the **Scheduling options** section (Figure 1).

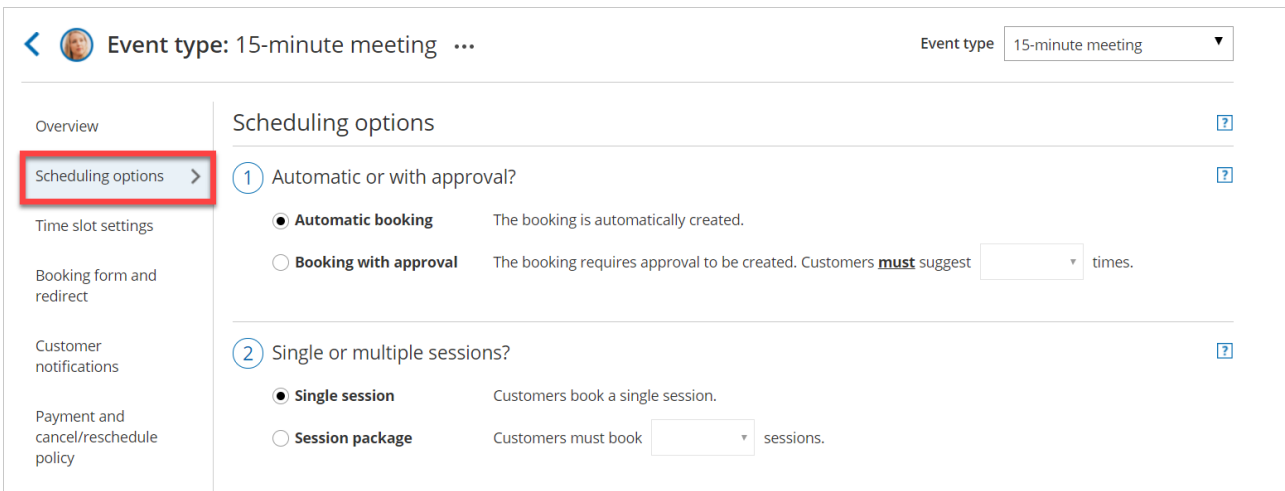

Figure 2: Scheduling options section when your Booking page is not associated with Event types

### Booking pages not associated with Event types

For Booking pages **not associated** with Event types, go to **Booking pages** in the bar on the left, select the relevant **Booking page**, and go to the **Scheduling options** section (Figure 2).
