## Editing Customer interface text [Classic]

If you want to have more control over Customer-facing text in your Booking page, you can use the Localization editor to change every line of Customer interface text.

In this article, you'll learn how to edit Customer interface text.

## Editing Customer interface text

- 1. Go to **Booking pages** in the bar on the left.
- 2. On the left, select the **Localization editor.**
- 3. Click the New locale button (Figure 1).

< Localization editor			• 2
New locale	System - English (US) (Set as default locale) (i)		Save
	(i) Go to each page's Overview section to modify its locale.	🚽 John Smith	• Preview (i)

## (i) Note :

Dynamic values including time zones, countries, states, locations, country codes, months, and days of the week will always reflect the parent locale from which they were duplicated.

Edit the text in the field in the right column (Figure 3) corresponding to the string in the English text column on the left. Some words may appear in multiple strings, so make sure you edit the correct string.
If you want to edit a specific string, use the browser search function (Ctrl + F on Windows or # + F on Mac) to find it.

Date and time step   Example     Important: Text in double square brackets [[ ]] is dynamic. It can be moved but should not be modified. Learn more					
English text	Custom locale text				
Your time zone:	Votre fuseau horaire :				
Read more	En savoir plus				
Duration:	Durée :				
Available starting times for	Heures de début disponibles pour				
Suggest a date and time	Suggérer une date et une heure				
Suggest [[slots]] possible times for this appointment	Suggérer [[slots]] heures disponibles pour ce rendez-vous				

Figure 3: Custom locale text column

6. To preview a locale on a Booking page or Master page with your Custom locale, use the drop-down menu at the top right of the editor screen to select the Booking page or Master page. Then, click **Preview.**

## i Note :

Previewing a locale does not apply the locale to the page.

7. When you've made all the necessary changes, click **Save**.

Finally, apply the Custom locale to your pages on the Overview section of the Booking page or Master page.
