- [Changing Booking page and Master page links](#)
- [Using one-time links](#)
- [Using General links](#)
- [Your Booking page link in your email signature](#)
- [Scheduling buttons gallery](#)
- [Add a Scheduling button to your email signature](#)

Accessing Links

Every Booking page and Master page has a unique Public link you can [share with prospects and customers](#) to schedule with you.

You can access your booking links by following the steps below:

1. Click on **Booking Pages** in the left-hand menu.
2. Click on **Share** near the top-right.
3. Select the Booking page or Master page you want to share from the dropdown menu.
4. Click on **Copy & close** to save it to you clipboard.

Sharing your booking links

The links that you share can either be general or [personalized](#).

The simplest way to share your pages is by using [General links](#), which can be [sent by email](#), [added to your email signature](#), or added to any other clickable element. General links require your Customers to identify themselves by [filling in their personal details](#) on a [Booking form](#) during the booking process.

You can also use the [OnceHub for Gmail extension](#) to schedule with Personalized links directly from your Gmail account. You can generate Personalized links, copy them in a single click, and send them in an email.

Personalizing the scheduling experience

You can choose to [personalize the scheduling experience](#) for your prospects and Customers, so that they will only

have to pick a time without having to provide any information that you already have. The Booking form can either be [prepopulated with their details](#) or skipped altogether.

The benefits to personalizing the booking process include:

- Saving your Customers the need to fill out their information, which you already have.
- Increasing conversion rates by saving time and reducing the number of steps it takes to book.
- Ensuring that a lead or Customer always registers with the same email, which will help you avoid CRM duplicate records.

Links can be personalized in any of the following ways:

- [Personalized for a specific Customer](#): This type of link contains the specific Customer's personal details and needs to be created individually for different Customers. These can be created by clicking the **Personalize for a specific Customer** link in the [Overview section](#) of a Booking page or Master page.
- [Personalized links \(URL parameters\)](#): These links can be personalized for each recipient receiving the link in a [mass email campaign](#). These links must be sent through an email marketing app that supports merge field.
- [Personalized links \(Salesforce ID\)](#): If you're using our [native Salesforce integration](#), your links can be automatically personalized for each recipient receiving the link in a [mass email campaign](#). These links must be sent from Salesforce or a Salesforce-integrated app.
- [Personalized links \(Infusionsoft ID\)](#): If you're using our [native Infusionsoft integration](#), your links can be automatically personalized for each recipient receiving the link in a [mass email campaign](#). These links must be sent from Infusionsoft or an Infusionsoft-integrated app.

Changing Booking page and Master page links

[Booking page](#) links and [Master page](#) links are used in all [Share & Publish](#) options. In some cases, you may want to change the link that Customers use, such as when a Booking page is [reassigned to a different User](#).

Using one-time links

When you use a [Rule-based assignment Master page](#) with [Dynamic rules](#), you can generate one-time links which you can send to your Customers to book with you. One-time links are good for one booking only, eliminating any chance of unwanted repeat bookings. A Customer who receives the link will only be able to use it for the intended booking and will not have access to your underlying [Booking page](#).

Using General links

Each [Booking page](#) and [Master page](#) has its own unique Public link that can be shared with your prospects and Customers. The links that you share can either be general or [personalized](#).
