### Understanding Personalized links

When you personalize the scheduling experience for your prospects and Customers, they only have to pick a time without having to provide information that you already have.

When you create a Personalized link using OnceHub for Gmail, the Customer's name and email address is automatically taken from the email. When the Customer uses the Personalized link to schedule a meeting, they only need to choose a date and time, then confirm the meeting. The Booking form is skipped and they will not have to provide their name and email address.

#### Note :

You can also send one-time links using OnceHub for Gmail.

### Requirements

To send Personalized links using OnceHub for Gmail, you must:

- [Install OnceHub for Gmail.](#)
- Have a scheduled meetings User license.
- Have an active booking link in your OnceHub account.

### Sending Personalized links using OnceHub for Gmail

When you generate a Personalized link using OnceHub for Gmail, the link is automatically personalized using the "To" field in the email you are composing.

If you have more than one email address in the "To" field, OnceHub for Gmail lets you confirm the details of the Personalized link before you copy it (Figure 1). By default, the **Customer name** and **Customer email** are taken from the first email address in the "To" field.
