

Maximizing booking rates in Salesforce Campaigns [Legacy]

When booking appointments is part of your email marketing campaigns, optimizing your booking rates becomes critical. In this article, you'll learn how to configure [Salesforce Campaigns](#) so that you track both bookings made, and more importantly, booking invitations that were missed or ignored. By tracking missed bookings, you'll be able to retarget them and increase the overall booking rates for your campaign.

Note:

For security and privacy reasons, using CRM record IDs to skip or pre-populate the Booking form is not compatible with [collecting data from an embedded Booking page](#) or [redirecting booking confirmation data](#).

Requirements

To update Salesforce fields when the Customer schedules or reschedules an event, you must:

- Be a [OnceHub administrator](#).
- Be a Salesforce Administrator for your organization.
- Have an [active connection to your Salesforce API User](#).

Let's assume that the Lead Status field includes the **Working – Contacted** and the **Open – Not contacted** options. To configure Salesforce Campaigns so that you can track both bookings made and booking invitations that were missed or ignored, you will also need to do the following:

- [Create an Event Status text Custom field for the Lead object and add it to the Lead Page Layout](#).
- [Map the OnceHub Status field to the Lead Event Status field](#).

The **Event Status** Custom field is used as a criteria to manage your campaign's Lead members.

Note :

When multiple events are booked for the same Lead, the **Event Status** custom field represents the last event status update.

Setting up Salesforce Campaigns to retarget missed bookings

Salesforce Campaigns enables you to automatically trigger the missed bookings campaign. For this example, let's look at a lead qualification use case, whereby you want to send an email broadcast to a List of unqualified leads, inviting them to book a discovery call.

Tag leads that DID make a Booking

1. Sign in to Salesforce.
2. Go to the **Sales** app.
3. Click the **Campaign** tab and click **New** (Figure 1).

4. Enter "Booked" as the name for the campaign.
5. In the **Type** drop-down menu, select **Email**.
6. Check the **Active** checkbox.
7. Click **Save**.
8. Click the **Leads** tab.
9. Click the gear icon and select **New** from the **List View Controls** drop-down menu (Figure 2).

Retarget leads that DID NOT make a Booking

1. Go to the **Sales** app.
2. Click the **Campaign** tab and click **New**.
3. Enter "Retarget Missed Bookings" as the name for the campaign. This campaign will target those who did not make a booking from the first campaign.
4. Check the **Active** checkbox.
5. In the **Type** drop-down menu, select **Email**.
6. Set the **Start Date** to start automatically several days after the initial marketing campaign was run.
7. Click **Save**.
8. Click the **Leads** tab. We will create a list of the members that do NOT belong to the **Booked Leads** group. This group will contain all those who have received the initial email and didn't open, click or made a booking.
9. Click the gear icon and select **New** from the **List View Controls** drop-down menu.
10. In the **New List View** pop-up, give the list a name and select who can view this list (Figure 8).

- 21. Click **Submit**.
- 22. Run your initial marketing campaign and make sure to monitor your **Retarget Missed Bookings** campaign.

Note:

You should retarget leads that didn't make a booking multiple times to continuously maximize your booking rates.
